CREATE
an ASCII text file for
use in other software

Features vary with software version selected. See version descriptions at right

Load each and every fact from this directory into your PC and point and click your way to instant sales leads! Sort companies instantly by size, industry or geographic area and see your results in seconds! View a list of the companies you've selected, print them in a variety of formats or export the names to your sales or word processing software.

Sort 28,640 California companies by:

- executive name, title or job function
- area code
- city
- annual sales
- zip code
- county
- S.I.C. code or N.A.I.C.S.
- number of employees

Other Features:

- Loads quickly and easily onto any PC running Windows 95 or later.
- Search for a specific company or executive by name, and EZ Select will find it instantly!
- If you're connected to a modem, one click can either dial any company's main phone number, or send you straight to their website!

Full Version: Contains all the companies, regardless of size. All the essential facts you need to determine your market potential are easily searchable and sortable by 14 criteria. You can print labels and reports or export data for mail merge, spreadsheet and database applications.

*****20+ Employees:*** This version eliminates smaller companies and contains only those firms employing 20 or more workers. Software features are identical to the version above.

******Basic:*** This product is essentially the print directory on CD — with extra features such as searching, sorting and printing one company profile at a time. Contains all companies, regardless of size, for unlimited searching and sorting up to 14 standard criteria. Data exporting, merge and label printing are not available with this version
